

7.3.1 Institutional Distinctiveness

After college hours, sports enthusiasts of the local community regularly practice various sports activities in our college playground. By making its infrastructure accessible and available to them, our college is actively encouraging the community to cultivate healthy sports activities. This approach has improved quality of life in the community with regard to issues like recreation and physical and mental health.

We are happy to note that several of the sports enthusiasts who practice sports in our playground have received recognitions and prizes at tournaments held elsewhere.
